

STOKOSEPT® Wash

Antibacterial hand cleanser for a hygienic handwash

Description

STOKOSEPT® WASH is an alcohol-free hand cleanser for a hygienic handwash which complies with the requirements of EN 1499. STOKOSEPT® WASH is effective against bacteria, swine flu virus and avian flu virus. Hygienic handwashing with water helps to save time, since bacteria on the skin are reduced during the washing process.

Area of Application

For use in areas where higher standards of hygiene are required, such as in the food industry, in nursing care centres, in kitchens and sanitary facilities.

Features and Benefits

Product Features	Benefits
pre-registered according to Biocides Directive 98/8/EC baua: Reg. No. N-34058 Combi preparation	<ul style="list-style-type: none"> ▶ effective in its application ▶ safe to humans and the environment
broad spectrum of effects	<ul style="list-style-type: none"> ▶ user-friendly bacterial reduction and hand cleansing in one go ▶ bactericidal, incl. MRSA ▶ fungistatic ▶ effective against swine flu (A/H1N1) and avian flu virus (H5N1) ▶ rapid onset of effect within 30 seconds
Contains gentle surfactants	<ul style="list-style-type: none"> ▶ good skin compatibility ▶ doesn't irritate the skin even when used frequently
Alcohol-free	<ul style="list-style-type: none"> ▶ good foaming properties and good skin compatibility ▶ is not combustible and is therefore not subject to storage and dispatch restrictions, as is the case with flammable, hand hygiene products containing alcohol
Soap-free	<ul style="list-style-type: none"> ▶ maintains the natural acidic coating of the skin ▶ prevents swelling of the skin usually caused by soap
Perfume and colourant-free	<ul style="list-style-type: none"> ▶ does not impair the wholesomeness or quality of food

Instructions for Use

Microbiological Expert Reports

Testing for suitability as a hygienic handwash in accordance with EN 1499 and standard methods of the VAH for testing and assessing chemical disinfection methods (as at: 01.09.2001):

Test report "Hygienic handwash in accordance with EN 1499", Prof. Dr. med. habil. A. Kramer, Greifswald

Test report "Hygienic handwash in accordance with EN 1499", Prof. Dr. med. H.-P. Werner, Bischofshofen, Austria

Test report "prEN12054 (July 2001) bactericidal action - phase 2/step 1 hygienic handwash", Prof. Dr. med. H.-P. Werner, Schwerin

Efficacy test against MRSA following the prEN 12054, Laboratory for Toxicology and Ecology - Microbiology - Evonik Stockhausen GmbH, Krefeld "Bactericidal efficacy following the EN 13727 and EN 1276", Laboratory for Toxicology and Ecology - Microbiology - Evonik Stockhausen GmbH, Krefeld

Efficacy tests against swine flu virus (A/H1N1) and avian flu virus (H5N1) following the EN 17476, Dr. Jochen Steinmann, Bremen

STOKOSEPT® WASH has been included in the current list of disinfectant methods tested and found effective by the "VAH" (Association for Applied Hygiene; corresponds to the old German Society for Hygiene and Microbiology "DGHM" list).

Skin Compatibility Tests

STOKOSEPT® WASH has proved to have good skin compatibility properties in human-experimental tests and in practical use.

A skin compatibility expert report prepared by the department of dermatology, clinic Krefeld, Germany, is available.

Statutory Regulations

STOKOSEPT® WASH subject to Biocides Directive 98/8/EC. STOKOSEPT® WASH is a hand disinfectant of main group 1, product type 1 of the Biocides Directive.

baua: Reg. No. N-34058

Safety Data Sheet

An EC safety data sheet containing additional product information is available. This can be downloaded from www.stoko.com.

Ecological Data

The surfactants used are biodegradable (OECD method).

Quality Assurance

All of our products meet the bacterial purity standards as they apply to medicines for external use (as defined by PhEur).

< 100 reproducible germs / g product.

Verification tests in this respect are a regular feature of our quality assurance procedures.

Shelf Life

Shelf life in unopened/opened packs: see indication on packaging.

Information on safe handling

Use hand hygiene products safely. Always read label and product information before use. Avoid contact with the eyes. Must be kept out of reach of children.

First Aid

In the event of accidental eye contact with STOKOSEPT® WASH, immediately rinse repeatedly using lukewarm water (eye douche, eye irrigation bottle). Consult a doctor if any burning sensation persists. In the event of swallowing any of the product seek medical advice immediately, taking the packaging or label with you.

Additional Information

The following documents are available for STOKOSEPT® WASH upon application:

Expert reports, bibliography and certificate of the German Association for applied Hygiene (VAH).

Packaging Sizes

250 ml bottle
1000 ml soft bottle
(for all STOKO VARIO® dispensers)

Please note that for reasons of trademark protection, only soft bottles from the STOKO® Programme may be used in these dispensers.

Using Antibacterial Skin Cleansers

Standard handwash method in accordance with EN 1499

1 rub palm on palm

2 rub left palm over back of right hand and vice versa

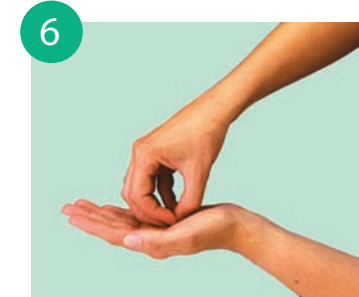

3 rub palm on palm with fingers interlaced

4 rub back of fingers on opposing palms with hands interlocked

5 rub thumbs rotationally

6 rub palm rotationally with clasped fingers

After this, work up a lather for 30 seconds using just a little water, then rinse off thoroughly under running water and dry hands.

Put disinfectant on to dry hands. The product must be allowed to act for a total of 30 seconds. Rub in the product following each of the steps illustrated above and repeating each action five times up to the wrists. Begin at step 1 again if the 30 seconds has not yet elapsed after step 6 and continue until the cleanser has been on the skin for the allotted time. Apply more of the product while cleaning the skin, as and when required. The skin must remain moist for the full contact time.
